District Four – February 27, 2019
District Six – March 6, 2019
District Seven (OMAT Auditorium) – March 7, 2019
District One – March 20, 2019

9:00 to 12:00 Contractor and Testing Personnel Topics/Issues

- Selecting Correct Mix Type
- Selecting Base, Intermediate or Surface Correctly
- Assigning 150's to GDOT Lab and not Contractor Lab
- Verifying JMF is entered in SiteManager before 159 is created
- Finding and deleting reports
- Fixing returned reports
- Air Void result communication needs to be improved
- GDOT Technicians - Completing 150's when no voids are required

1:00 to 4:00 Construction Topics/Issues

- Number of Cylinders in SiteManager per Batch (3X6 cylinders = 4 set, 4X8 = 3 set, 6X12 = 2 set)
- Correctly assigning tests to 319 (one issue selecting Concrete strength test and not concrete cylinder)
- Assigning Correct Lab
- Selecting Contract ID Tab and not Other Tab
- Matching SiteManager Sample ID exactly with Cylinder mold or card information
- General Construction Use of GDOT 411
